

GRAVEL PACK BLENDER

FOR RELIABLE LOW-RATE
SAND MIXERY OPERATIONS

GOES

Gravel Pack to avoid Sand Problems

APPLICATIONS

- Mixes sand and water or low viscosity carrier fluid for gravel pack slurry
- Continuous blending of low concentration gravel-pack slurries or other treatment fluids
- Utilized for extreme climates from arctic to desert and tropical conditions

FEATURES

- Truck, trailer or skid mounted
- Various Engines
- Various configurations
- Built to European standards (optional)
- CE conformity (optional)
- Suction and discharge pump
- Sand auger
- Mixing tub
- Hydraulically driven mixing systems
- Automatic Tub-Leveling System (ATL)
- Automatic Chemical Control System (ACC) for liquid and dry additives
- Pumps can be operated manually or automatically
- Pumps: Progressive cavity pumps, gear pumps and rotary pumps
- Various quantities/brands of liquid additive pumps
- Eductors for introduction of dry additives into the blender tub (optional)
- Control cab
- Densitometer
- Flow meters
- Remote control
- Data acquisition system
- Blending tanks (optional)
- Treating iron and fittings
