FRAC PUMPS

TRAILER MOUNTED
Operating in ambient Temperature Ranges of -40°C to +60°C

**APPLICATIONS**

- Hydraulic and acid fracturing
- High-pressure, solvent and liquid carbon dioxide pumping
- Utilized for extreme climates from arctic to desert and tropical conditions

**FEATURES**

- Trailer mounted
- Diesel engine / various HP ratings
- Heavy duty powershift transmission
- High Pressure triplex or quintuplex pumps
- Horizontal radiator complete with hydraulic thermostatically controlled fan
- Built to European standards (optional)
- CE conformity (optional)
- Remote control included for added safety and communication
- Hydraulic, electric or air start
- Heavy duty exhaust system
- Heavy duty air cleaners with pre-cleaners
- Engine pre-heaters for extreme conditions
- Electrical trace heating FE-pipeline

- Over-pressure safety device
- Emergency shutdown
- Coolant, hydraulic and power end coolers
- Suction manifold suitable for H₂S service
- Various pump manifold configurations
- Suction or discharge dampener
- Various options for fuel capacity
